

ECOFLEX M 42

This inexpensive bimetal band saw blade with a vibration damping variable tooth pitch and tooth tips made of high resistant HSS-M 42 is especially suitable for cutting small and medium work pieces and is convincing by a most favorable price in proportion to the performance.

- for small and medium workpiece dimensions
- for profiles and solid materials
- for demanding workshop operations
- for all steels up to 45 HRC

Item-Group 523
ECOFLEX M 42 (68-69 HRC)

Dimensions width x thickness		Tooth pitch T_z in teeth per inch (tpi) Raker set					
mm	Inches	3-4	4-6	5-8	6-10	8-12	10-14
20 x 0,90	3/4 x 0,035		K	S	S	S	S
27 x 0,90	1 1/16 x 0,035	K	K	S	S	S	S
34 x 1,10	1 3/8 x 0,042	K	K	S	S	S	

Tooth form: S = raker tooth, K = hook tooth
