

Minicrop

In addition to the features the **MICROCROP** machine has, this model also includes:

1. Patented L-cut system at 90° without deformation.

Wide range of opening for \emptyset and \emptyset -cut without deformation.

2. Goose neck die-holder for punching of \sqcup and Γ sections in legs and web.

3. Blade for flat bar with unique radial geometry for shearing with minimum deformation.

4. Rectangular notching equipment with precision machined worktable and scaled stops.

5. Optional Blades for shearing \sqcup and Γ section up to 4" with.

Possibility of mounting a wide range of optional equipment for notching and punching.

Multicrop

The **MULTICROP** model offers, all features of the **MINICROP** model, as well as shearing angle section iron at 45 ° leg in and leg out **(6)**.

7. Standard shear blades L, Ø and ∇ .
